Kolkata, India

Executive Summary

Architect – Agentic AI, Cloud, Digital

Transforming Enterprise Technology at Scale

- ❖ 25+ years leading enterprise technology initiatives for Fortune 500 clients across BFSI, healthcare, public sector and others
- ❖ Gen AI & Agentic Systems Expert — Delivered production RAG and multi-agent solutions generating 300% ROI; driving adoption from proof-of-concept through enterprise scale
- ❖ Translate C-suite priorities into secure, scalable architectures; bridge technical and executive stakeholders across cross-functional teams
- ❖ Hands-on Technology leadership spanning global consulting firms, major cloud providers, and Fortune 500 enterprises
- ❖ Led Architecture Center-of-Excellence, enabling/ mentoring/ recruiting senior-level architects. Led large complex solution delivery with global team (100+)

Work Experience

Digital Architect, Philips

Digital & Innovation Platform | Feb 2020 - present

- Managing architecture across large application portfolio, leading multiple large programs (direct 8M+ in 2025)
- Delivered Agentic AI system with concrete ROI (>300%), integrating AI into legacy business process and applications
- Driving collaboration across cross-functional teams and ensuring delivery assurance with multi-vendor teams
- Internal AI champion & evangelist, leading from concept to execution for multiple initiatives, enabling/ mentoring teams

Principal Solution Engineer, Oracle

Sales & Solution Engineering | Apr 2017 - Jan 2020

- Served trusted technical advisor to CXO/senior leadership for cloud strategy and adoption roadmap
- Demonstrated/ established technology value proposition with Chief Architects, delivered technical workshops (20+)
- Mentored engineering teams through proof-of-concepts, reference architecture, implementation guidance, drove successful collaboration with partner teams, created feedback loop with consulting, product support and engineering
- Supported complex pre-sales deals and large wins (8+) at Indian MNCs, PSU Banks, Governments
- Acted as SME for complex technologies (OKE, ICS, SOACS, PCS and others)
- Technology evangelist representing OCI in industry and customer forums

Principal Architect, Cognizant Technology Solutions Ltd.

Global Technology office | Jan 2008 - Mar 2017

- Owned architecture and solution for multiple large-scale transformation programs (largest > **40M+**), leading global team (**100+**)
- Executed strategic architecture consulting (20+) with premier global customers across NA, APAC, EMEA
- Solution for 30+ strategic large pursuits and pilots for global clients (45% win rate), orchestrating across teams for complex multi-disciplinary technologies, solution demos and workshops (40+)
- Managed Architecture CoE mentoring team of senior architects (15)

Solution Architect, Tata Consultancy Services Ltd.

Multiple Accounts | Jul 2000 - Dec 2007

- Programmer to solution architect journey. Extensive experience in end-to-end software lifecycle, variety of roles, customers and business domains, spanning geographical and cultural boundaries.
- Served as Technical Architect of a leading Banking & Insurance Suite, successful rollout for a flagship customer

Career Highlights

❑ Deep and holistic experience across end-to-end lifecycle

- ❖ Thorough experience across entire software development lifecycle. Experienced in strategic architecture consulting, large-scale cloud-native platform engineering, complex solution delivery, product organization and pre-sales, managing architecture in large application portfolio in a deeply regulated industries.

❑ Gen AI, Agentic AI: Expert level knowledge in GenAI, Agentic frameworks, Patterns, Standards, Tools

- ❖ Currently leading large AI transformation program deployed to production with security, observability, delivered >3x business ROI
- ❖ Building an AI foundation architecture, executed advanced proof-of-concepts for enterprise use cases

❑ Solution Architecture, Cloud: Deep practitioner experience in solution design across cloud providers

- ❖ Solution engineering across IaaS & PaaS services from AWS, Azure, GCP and OCI
- ❖ Exceptional expertise in API, Microservices, cloud-native, Kubernetes/ containers, designing scalable secure distributed solutions

❑ Fine Consulting Skills honed from years of customer-facing roles and professional consulting experience

- ❖ Deep analytical, stakeholder management, exceptional communication
- ❖ Proven ability to influence and collaborate across business and technology domains
- ❖ Strategic and creative thinker, self-driven, adaptable to fast-paced environments

❑ Technical Leadership: Hands-on architect experience in wide variety of technologies

- ❖ Ability to translate complex technical concepts for executive leadership, and establish value proposition
- ❖ Proven track record of rapidly integrating new technologies into IT landscape, making multi-technology integration accelerated (60%). Continuous learner
- ❖ Deep understanding of technology fundamentals. Ability to learn new technologies exceptionally fast. Proven ability to establish strong working relationships with technical teams.

❑ Management

- ❖ Managed Architecture CoE of 15 senior architects, led delivery with global team (100+)
- ❖ Team development, operational planning, mentoring, performance management, recruiting

Technology Skills

❑ Gen AI, Agentic AI, Applied AI

- ❖ LLM: Azure OpenAI, GCP, Anthropic Claude, Claude API, Claude Code | Frameworks: Langchain, LangGraph, CrewAI, Autogen, Google ADK | Evals - frameworks & design | Vector DB: Azure AI Search, Chroma, FAISS, Pinecone | MLOps, LLMOPs | AI Guardrails, Safety, Ethics & Governance
- ❖ RAG Patterns | Protocols – MCP, A2A | Langfuse, Observability Tools | NLP, NER, Text/ image/ video/ multimodal processing

❑ Cloud Platforms, Solution Architecture, Enterprise Integration

- ❖ API (REST, SOAP, gRPC), API Security (oAuth2, JWT, SCIM), APIM, Microservices, Kubernetes, Docker, Service Mesh, SOA, Event-driven architecture, BPM, ESB, iPaaS, Messaging, Kafka, Streaming
- ❖ Strong practical knowledge across IaaS, PaaS services of major cloud providers: AWS: EC2, Lambda, S3, EKS, SageMaker, Bedrock, others | Azure: AI Foundry, Functions, WebApp, AKS, Cosmos, Data Fabric, Microsoft CoPilot | GCP – Vertex AI, GKE, BigQuery | OCI – IaaS, PaaS

❑ Application Development, Data Management, DevSecOps

- ❖ Python: Advanced LLM orchestration, FastAPI, Streamlit/ Gradio, Agentic frameworks
- ❖ Java/SpringBoot, Next.js, React/ TypeScript | Polyglot programming | ELK, CNCF
- ❖ Data design, governance | RDBMS - Oracle, PostgreSQL | NoSQL – Redis, DynamoDB, MongoDB | Data Platforms & Analytics tools | Data Lake
- ❖ CI/CD, Github, Azure DevOps, GitOps, Terraform, Cloudformation, IaC/ IfC, SRE principles & practices

❑ SaaS & Enterprise Application

- ❖ Salesforce, Zuora, Windchill, Oracle, SAP, Veeva, Aprimo, Coveo | Deep experience in enterprise lifecycle

❑ Enterprise Architecture

- ❖ EA Frameworks: TOGAF, Zachman | EA tools: Sparx, Archimate, ARIS, BPMN | Enterprise Security standards, Regulatory compliance - GDPR, HIPAA, SOX

❑ Program Management, Team Management

- ❖ Agile, Scrum, Kanban, SAFE | Managed Architecture CoE (15 architects) and large delivery (100+)

Annexure

EDUCATION

Bachelor of Engineering, Electrical Engineering, Jadavpur University, India, 1996-2000
